It's More Than Just a Roof

Not only does your roof protect the contents of your home, it also protects you, your family, and your lifestyle. A roof is practical, but there's really nothing practical about the way it looks.

A roof can make an ordinary home extraordinary. Matterhorn® Metal Roofing from CertainTeed gives your home the authentic look, design, and natural detail of real wood shake, quarried slate, and traditional clay tile roofing. It's stronger than steel, and capable of withstanding wind, hail, and fire. It has the strongest warranty in the industry, backed by CertainTeed's 100+ year legacy of performance and innovation. It's sustainable and energy efficient, available in 16 CRRC-rated colors.

MATTERHORN METAL ROOFING. MORE THAN JUST A ROOF.

Profiles

Tile

We went to great lengths to replicate the charming allure of clay, and the result is a convincing interpretation of real tile forged in steel.

Shake

Expertly designed to capture the character of real wood, Matterhorn® Shake's stylized chiseling creates an appealing texture and dimension.

Slate

Lightweight and durable, Matterhorn Slate's patented paint system captures the timeless, natural beauty of mottled stone.

Performance

Matterhorn Metal Roofing is engineered to provide the high performance you expect from a luxury roof.

- Class 4 Impact Resistance
- Class A Fire Resistance
- 130 mph Wind Rating
- 16 CRRC-rated Cool Roof colors, reflect up to 66% of the sun's rays

Cool Roof Technology

Matterhorn's PVDF Tri-Pigment Reflective Technology® paint system offers the ultimate in reflectivity and fade protection. Most Matterhorn colors are CRRC (Cool Roof Rating Council) rated. This means your roof stays cooler and reduces the amount of heat transferred into your home, significantly lowering your energy costs.

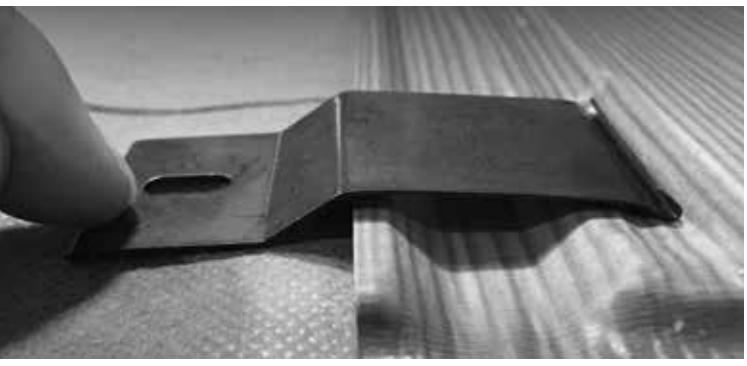
Anti-Corrosive

Stronger Than Steel

Matterhorn® metal roofing starts with DDS high-performance G90 steel. Multiple layers of advanced polymer coatings are applied over the metal substrate. These coatings, along with the modern metallic alloys, provide outstanding corrosion resistance. The protective properties of these coatings create a self-healing surface. The result is metal roofing that is quite literally **stronger than steel.**

Each panel is painted with a high-performance Valspar PVDF paint system, specifically engineered for fade resistance to last a lifetime.

Engineering Details & Specifications



MATTERHORN TILE

SPECIFICATIONS

- Multi-layer PVDF coating system to resist weathering, aging, rust, and pollution
- 0.019″ Thickness
- 98 lbs. per square
- 16 panels per square
- Nominal Dimensions:
  20-5/8″ w x 48-1/4″ L uninstalled
  18-3/16″ w x 47-1/4″ L installed
- Min. Pitch: 3:12

CertainTeed metal roofing products are tested to ensure the highest quality and comply with the following industry standards:

Fire Resistance
- Complies with ASTM E108 Class A, Class B (See Manufactures Technical Data Sheets for Specific Systems)

Impact Resistance
- Complies with UL 2218, Class 4

Wind Uplift Resistance
- Warranted to 130 MPH
- UL 1897
- Wind-Driven Rain, AC166 (Sec 4.2)

Solar Reflectance
- 8 CRRC-rated colors

Quality Testing & Approval
- CCMC 14115-R
- TDI RC-487
- FL21470
- IAPMO UEL-5004
- IAPMO ER-375

MATTERHORN SHAKE

SPECIFICATIONS

- Multi-layer PVDF coating system to resist weathering, aging, rust, and pollution
- 0.016″ Thickness
- 96 lbs. per square
- 16 panels per square
- Nominal Dimensions:
  22-1/8″ w x 47-1/2″ L uninstalled
  20-1/2″ w x 45-7/8″ L installed
- Min. Pitch: 3:12

CertainTeed metal roofing products are tested to ensure the highest quality and comply with the following industry standards:

Fire Resistance
- Complies with ASTM E108 Class A, Class B (See Manufactures Technical Data Sheets for Specific Systems)
